MF Utility is also extending the features of MFU website for accepting commercial transactions in Reliance ETF Schemes (except Reliance ETF Liquid BeES and Reliance ETF Gold BeES) in Creation Unit size.

Accordingly, all the authorized POS and website/mobile application of MFUI (available currently and also updated from time to time) shall be eligible to be considered as ‘official points of acceptance’ for all financial and non-financial transactions in the schemes of RMF either physically or electronically. The Uniform Cut - off time as prescribed by SEBI and mentioned in the SID / KIM shall be applicable for applications received through such facilities.

Investors are requested to note that MFUI will allot a Common Account Number ("CAN") i.e. a single reference number for all investments in the mutual fund industry for transacting in multiple schemes of various mutual funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form and necessary documents at the POS. The AMC and/or its Registrar and Transfer Agent shall provide necessary details to MFUI as may be needed for providing the required services to investors/distributors through MFU. Investors are requested to visit the website of MFUI i.e. www.mfuindia.com to download the relevant forms.

The dividend would be reinvested in the same scheme / plan by issuing additional units of the scheme at the prevailing ex-dividend Net Asset Value per unit on the record date. There shall be no exit load on the redemption of units allotted as a result of such reinvestment of dividend.

- Mandatory reinvestment of dividend would not be applicable to Unit holders holding units in Demat form, and if dividend is declared in any applicable scheme, the amount will be paid out or reinvested as per the option selected by the unit holders.

### V. INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

The NAV would be determined on each valuation day and for such other purpose as may be required for transaction purposes. The NAV of the
Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The NAV shall be computed based on the following formula or such other formula as may be prescribed by SEBI from time to time.

Net Assets = Market or Fair Value of the Scheme’s Investments + Receivables + Accrued Income + Other Assets – Accrued Expenses – Payables – Other Liabilities

The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time. The broad Valuation norms are detailed below:

A) Equity and Equity related Securities

1. Traded Securities -
   (1) The securities shall be valued at the last quoted closing price on the stock exchange.
   (2) When the securities are traded on more than one recognised stock exchange, the securities shall be valued at the last quoted closing price on the stock exchange where the security is principally traded.
   (3) When on a particular valuation day, a security has not been traded on the Principal stock exchange, the value at which it is traded on another stock exchange may be used.
   (4) When a security (other than debt securities) is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the selected stock exchange, as the case may be, on the earliest previous day may be used provided such date is not more than thirty days prior to valuation date.
   (5) For valuation of securities held by Exchange Traded Funds (ETFs) and Index funds which are benchmarked to indices relating to a particular stock exchange, the principal stock exchange will be that exchange, e.g. for a Sensex Fund, the principal stock exchange will be the BSE

2. Thinly Traded Securities- :

   Thinly Traded Equity/Equity Related Securities:
   (1) "When trading in an equity/equity related security (such as convertible debentures, equity warrants, etc.) in a month is both less than Rs. 5 lakh and the total volume is less than 50,000 shares, it shall be considered as a thinly traded security and valued accordingly"
   (2) For example, if the volume of trade is 100,000 and value is Rs. 400,000, the share does not qualify as thinly traded. Also if the volume traded is 40,000, but the value of trades is Rs. 600,000, the share does not qualify as thinly traded. In order to determine whether a security is thinly traded or not, the volumes traded in all recognised stock exchanges in India may be taken into account.

3. Valuation of Non-Traded / Thinly Traded Securities:

   Non traded/ thinly traded securities shall be valued “in good faith” by the AMC on the basis of the valuation principles laid down below:

   Non-traded / thinly traded equity securities:

   Based on the latest available Balance Sheet, net worth shall be calculated as follows:

   Net Worth per share = [share capital + reserves (excluding revaluation reserves) - Misc. expenditure and Debit Balance in P&L A/c] Divided by number of Paid up Shares.

   Average capitalisation rate (P/E ratio) for the industry based upon either Bombay Stock Exchange Limited (BSE) or National Stock Exchange of India Limited (NSE) data (which should be followed consistently and changes, if any noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.

   (1) The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for ill-liquidity so as to arrive at the fair value per share.
   (2) In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.
   (3) In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
   (4) In case an individual security accounts for more than 5% of the total assets of the Scheme, an independent valuer shall be appointed for the valuation of the said security.
   (5) To determine if a security accounts for more than 5% of the total assets of the Scheme, it should be valued by the procedure above and the proportion which it bears to the total net assets of the Scheme to which it belongs would be compared on the date of valuation.

4. Non Traded Securities :

   When a security (other than Government Securities) is not traded on any stock exchange for a period of thirty days prior to the valuation date, the scrip must be treated as “non traded” security.

5. Valuation of Unlisted Equity Shares:

   Unlisted equity shares of a company shall be valued “in good faith” on the basis of the valuation principles laid down below:

   (1) Based on the latest available audited balance sheet, net worth shall be calculated as lower of (a) and (b) below:

   (a) Net worth per share = [share capital plus free reserves (excluding revaluation reserves) minus Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] divided by Number of Paid up Shares

   (b) After taking into account the outstanding warrants and options, Net worth per share shall again be calculated and shall be = [share capital plus consideration on exercise of Option/Warrants received/receivable by the Company plus free reserves (excluding revaluation reserves) minus Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses] divided by (Number of Paid up Shares plus Number of Shares that would be
obtained on conversion/exercise of Outstanding Warrants and Options)

The lower of (a) and (b) above shall be used for calculation of net worth per share and for further calculation in (3) below.

(2) Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.

(3) The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 15% for illiquidity so as to arrive at the fair value per share.

The above methodology for valuation shall be subject to the following conditions:

(a) All calculations as aforesaid shall be based on audited accounts.

(b) In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.

(c) If the net worth of the company is negative, the share would be marked down to zero.

(d) In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.

(e) In case an individual security accounts for more than 5% of the total assets of the Scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the Scheme, it should be valued in accordance with the procedure as mentioned above on the date of valuation.

(f) At the discretion of the AMC and with the approval of the Trustees, an unlisted equity share may be valued at a price lower than the value derived using the aforesaid methodology.

6. Illiquid Securities:

(1) Aggregate value of “illiquid securities” of Scheme, which are defined as non-traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the Scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value.

(2) All funds shall disclose as on March 31 and September 30 the Scheme-wise total illiquid securities in value and percentage of the net assets while making disclosures of half yearly portfolios to the unitholders. In the list of investments, an asterisk mark shall also be given against all such investments, which are recognised as illiquid securities.

(3) Mutual Funds shall not be allowed to transfer illiquid securities among their Schemes with effect from October 1, 2000.

(4) In respect of closed ended funds, for the purposes of valuation of illiquid securities, the limits of 15% and 20% applicable to open-ended funds should be increased to 20% and 25% respectively.

7. Value of “Rights” entitlement

(1) Until they are traded, the value of the “rights” entitlement would be calculated as: \[ V_r = \frac{n}{m} \times (P_{ex} - P_{of}) \] where

\[ V_r \] = Value of rights
\[ n \] = no. of rights Offered
\[ m \] = no. of original shares held
\[ P_{ex} \] = Ex-Rights price
\[ P_{of} \] = Rights Offer price

(2) Where the rights are not traded pari-passu with the existing shares, suitable adjustments would be made to the value of rights. Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights would be valued at the renunciation value.

8. Valuation Policy For ADR & GDR and all Overseas Securities

For the purpose of computation of NAV on the same day

If the security/ETF is listed in a time zone ahead of ours then the same days price would be used for valuation. The price in the local currency would be obtained and the closing RBI reference rate would be used to calculate the closing price in INR. If the INR price for the security is available then the same would be used for valuation.

If the security/ETF is listed in a time zone behind ours then the previous days price would be used for valuation. The price in local currency would be obtained and the closing RBI reference rate would be used to calculate the closing price. If the INR price for the security is available then the same would be used for valuation.

If the stock/ETF is listed in a currency for which RBI reference rate is not available, the exchange rates available from Reuters (at 5.00 P.M IST) will be used. In case the direct exchange rates are not available on Reuters, then cross currency rate with USD would be considered and converted as per the INR/USD RBI reference rate.

For the purpose of computation of NAV on the next day (T+1)

The latest available closing price of the exchange on which the security is listed and RBI reference rate would be considered for valuation. If the stock is listed in a currency for which RBI reference rate is not available, the exchange rates available from Reuters (at 5.00 P.M IST) on T will be used. In case the direct exchange rates are not available on Reuters, then cross currency rate with USD would be considered and converted as per the INR/USD RBI reference rate.

9. Valuation of Derivative Products:

(1) The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the Regulations as amended from time to time.
(2) The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the Regulations as amended from time to time.

(3) The valuation of the Scheme’s assets and calculation of the Scheme’s NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

10. Valuation of Mutual Fund Units

Units listed and traded would be valued at the closing traded price as on valuation date. Unlisted units and to be listed units, or those for which no traded price is available, would be valued at the Net Asset Value (NAV) as on the valuation date.

11. Valuation of Securities Lent under Securities Lending Scheme

The valuation of securities lent under Securities Lending Scheme shall be valued as per principles as mentioned in the respective subsection of Section 5 of this policy. The lending fees received for the Securities lent out would be accrued in a proportionate manner till maturity of the contract.

12. For valuation of securities held by Exchange Traded Funds (ETFs) and Index funds which are benchmarked to indices relating to a particular stock exchange, the principal stock exchange will be that exchange, e.g. for a Sensex Fund, the principal stock exchange will be the BSE.

13. The valuation of securities lent under Securities Lending Scheme shall be valued as per principles as mentioned in the respective subsection of Section 5 of this policy. The lending fees received for the Securities lent out would be accrued in a proportionate manner till maturity of the contract.

B. Valuation of Debt and Money Market Instruments

Broadly the following principles would be applicable for valuation of different instrument types across all schemes:

For valuation of Debt & Money market securities

Less than and upto 60 days

Approach as outlined in Section 2.1

More than 60 days

- All Debt/Money market securities of more than 60 days would be valued based on the average of security level valuation to be provided by external agencies as recommended by AMFI & as approved by the Board. Such prices would also be provided for non-transaction days.

- New securities purchased of more than 60 days maturity for which valuation price is not provided by external agencies on the date of purchase, would be valued based on the Weighted average price/yield of trades.

- Any decision on any given valuation day of overriding the external agency price would have to be approved by the Valuation Committee. The valuation would have to be suggested by the Fund Manager with the approval of Head of Fixed Income based on the market data and independently reviewed/verified by Risk Management and then sent to Fund Accountants for incorporating in the NAV Computation.

- Securities with call and put options would be valued as per SEBI guidelines of taking the lowest/ highest value on call/ put dates and maturity dates.

- Securities having put and call options on the same day but at differential prices would be valued as follows
  - Find out the lowest value obtained by valuing at various call dates and valuing at maturity date
  - Find out the highest value obtained by valuing at various put dates and valuing at maturity date
  - Take the lower price of the above two.

- For Securities with Put/call option, post exercise of Put/Call, the security will be amortized to the nearest Put/call date & valuation prices as provided by independent agencies will be ignored. This principle would not be followed only if the tenor of Put/call date from Record date is more than 60 days. In that case security will be valued as if its residual tenor is from Record date to Put/Call date till the residual tenor is 60 days post which the above principle of amortization will be applied. It is clarified here that if the put / call option is not exercised, we will continue to follow the average security level valuation as provided by CRISIL / ICRA.

- Valuation committee would meet at least once in a quarter or on need basis

- This policy would be reviewed and revised (if needed) by a member of valuation committee in the event of any new guidelines issued by SEBI or any other regulatory organization. Further, it is mandatory to necessarily review the valuation policy on an annual basis. It would be responsibility of the compliance team to update the investment team as well valuation committee of any new regulatory guidelines pertaining to valuations. On an annual basis, the policy would be approved by Board of Directors and Board of trustees.

- Valuation committee would review:
  - Valuation of all securities across all schemes
  - All inter-scheme transfers
  - Markup/ down valuation yield and changes therein
  - Any exceptions to the valuation policy

- Approved copy of the valuation policy would be provided to the fund accountants, who would then be responsible for carrying the valuations as per the policy. Further, Fund Accountants would be required to certify on a fortnightly basis that all valuations have been carried out as per the policy. If required, Service Level Agreement would be suitably modified.

- All interscheme transfers would be signed by fund managers, risk management and the head Fixed Income. Further all inter scheme transfers would be reviewed by the head compliance.

- Markup/ downs in valuation yield or any changes there in would be communicated in writing to the fund accountants and would be preserved for future records.
• All securities Valuation would follow Fair valuation principle and suitable methodology will be adopted considering the relevant parameters of individual securities.

• As per SEBI Circular, for debt instrument which are new and valuation models are not available, valuation would be at cost or internally developed valuation models to be decided on case to case basis. Relevant extracts from the Circular are as follows:
  a) Exposure should not exceed 5% of total AUM of the scheme
  b) These models have to be approved by independent Trustees and Statutory auditors.
  c) The AMC would escalate the new instruments to AMFI for getting valuation pertaining to them incorporated in valuation framework within a period of 6 weeks.

1. Definitions

1.1 Recognition of Trades for Valuation Purpose

For instruments maturity above 60 days

Ignore the traded price and take into consideration the average of security level valuation provided by CRISIL and ICRA, since this reflects the market level for a given day for that particular security

For Instruments maturing upto 60 days

Weighted average trade price may be taken for the purpose of modifying spreads, if there are at least 3 market trades aggregating to Rs 100 crores or more and weighted average yield on such market trades is at least at a 15 bps different spread compared to existing spread

Hierarchy for trade information sources for trade recognition for less than and upto 60 days residual maturity securities

The market trades would be recognized from various sources in the following order of priority.

• RBI (NDSOM/NDS PDO)
• FIMMDA
• NSE WDM
• BSE

Own trades/interscheme trade
For the purpose of the recognitions of trade, the data from each of the above sources shall be evaluated independently and shall not be aggregated

Schemes own trades
Weighted average trade price of schemes own trade may be taken if there is trade in marketable lot (i.e. Rs 5 Crores) for any security. In case of scheme trades and market trades, schemes trades will be second in priority viz a viz market trades for valuation

Since all interscheme trades would be done at current market levels and follow the principle of fair valuation like any other own trade, hence such interscheme trades would be treated at par with own trades for valuation purpose.

1.2 Non Traded Security/Thinly Traded security

A security would be considered as thinly traded / non traded if on the valuation date, it does not suffice the recognition of trade criteria as mentioned in section 1.1

1.3 Non Performing Asset

An ‘asset’ shall be classified as nonperforming, if the interest and/or principal amount have not been received or remained outstanding for one quarter from the day such income/installment has fallen due. Any non-performing asset will also be treated as non-investment grade asset. Provisions will need to be made for any non-performing assets (debt securities) in the portfolio as per guidelines.

1.4 Traded Price/Yield

Traded price would be used for valuation based on Recognition of Trade criteria as defined in Section 1.1. To remove distortions due to the settlement dates (e.g. across a weekend/holidays, same day value), weighted average traded yields will be used to arrive at the t+1 equivalent trade price for valuation purposes

1.5 External agencies

All external agencies would be approved as recommended by AMFI and as approved by the Board for considering security level valuation. At present the CRISIL/ICRA would be providing the security level valuation

2. Valuation Guidelines -Investment Grade Securities

2.1 Valuation of Non-Traded Securities/Thinly Traded security

Less than upto 60 days

Instruments will be valued by amortization on a straight line basis to maturity from cost or last valuation price, whichever is more recent.

However, it will be ensured that the amortized price is a fair reflection of market conditions, by comparing it to a Reference Price.

Crisil and ICRA shall be providing reference yields for all securities with a residual maturity of less than 60 days. The yields would be provided in a matrix format based on the residual maturity and rating of debt instruments. The yields provided by both agencies shall be aggregated and averaged. This will be done through software which is being developed by Crisil.

Based on the relevant benchmark yield (which will be derived from the reference yield curve mentioned above based on the residual maturity and rating of each security) and a security specific spread, a reference yield for each security will be calculated on a daily basis. Security specific reference price will be calculated using the reference yield on a money market basis.

This reference price will then be compared with the amortized price of each security.
In case the difference between the reference price and the amortized price is within +/- 10 bps, the security will be continued to be valued through amortization. However, if on any day the price difference is more than +/-10 bps, the valuation of the security will be adjusted so as to bring the difference within a band of +/-10 bps.

Adjustment should be done on the day of the breach so as to bring the difference down to +/- 5 bps.

Benchmark yield curve:
The benchmark yield curve shall be constructed by Crisil and ICRA on a daily basis, based on market trades and polling of market participants. For construction of this benchmark yield curve, traded prices/yields across all public platforms will be considered. For practical reasons, the benchmark yields will be provided for each calendar fortnightly interval, for tenors up to 91 days. Like for securities currently above 91 days to maturity, the yield curve shall be constructed in a matrix format, where each issuer can be benchmarked based on the credit rating and time to maturity.

Security Specific Spread:
An acquisition of a less than 60 day security could happen in two ways.

a) Residual maturity of an existing security falling below 60 days.

b) Fresh purchase of the security with a residual maturity of up to 60 days.

For every security acquired through any of the ways mentioned above, the difference between the yield of the security and the benchmark yield curve will be captured. This difference as on the first day of acquisition will be the spread for that security.

The spread of the security over the benchmark yield curve will generally be kept constant through the life of the security and shall be changed only if there is a reasonable justification for the change.

The spread will be changed if there are market trades in the same security at yields which will result in significantly different spreads, vis a vis current spread. For any reset along these lines, we will consider two aspects.

(i) There has to be sufficient volume of such transactions. The qualification of the same would be at least 3 trades aggregating to Rs 100 crs or more.

(ii) A significantly different spread would mean a difference of at least 15 bps between current spreads, and spreads derived from the relevant market trades.

Any decision to change the spread based on market trade would be taken by mid-office (risk department), based on adequate documentation and justification presented by the portfolio management team and shall be presented in the subsequent valuation committee meeting for ratification.

The spread may also be changed if there is a change in credit profile of the underlying issuer which warrants a change in current spreads over benchmark yields.

The change in credit profile of an issuer may arise due to one or a combination of the following factors.

(i) Change in credit rating of the said issuer.

(ii) Change in the credit rating outlook.

(iii) Significant change in the business and / or financial risk profile.

(iv) The above three factors are not exhaustive. There can be other reasons which may be considered for evaluating the credit profile of an issuer, based on adequate data, market information and analysis.

Further, given the dynamic nature of the markets, and due to changing market conditions, the risk department (mid office), may choose to revisit spreads at any point in time, based on the inputs / information received from internal / external sources. If so, then these changes shall also be reported post facto to the valuation committee for their ratification.

Trades done by the fund in an existing holding, will lead to a change in valuation yield for that security, provided the trade is at least of a marketable lot. This would result in a change in the valuation price of the security which will be valued at the weighted average yield of all trades done by the fund on that day. The security will then start getting amortized from the new valuation price.

An own trade will also lead to a reset in spreads. Based on the traded yield, the new spread will be calculated, over the benchmark yield curve. The reference yield will then be the combination of the benchmark yield and the new spread.

Since all interscheme trades would be done at current market levels and follow the principle of fair valuation like any other own trade, hence such interscheme trades would be treated at par with own trades for valuation purpose.

2.2 Valuation of Traded/ Non-Traded Securities/Thinly Traded security
For instruments maturity beyond 60 days

All Debt /Money market securities of more than 60 days would be valued based on the average of security level valuation to be provided by external agencies as recommended by AMFI & as approved by the Board. Such prices would also be provided for non-transaction day.

New securities purchased of more than 60 days maturity for which valuation price is not provided by external agencies on the date of purchase, would be valued based on the Weighted average price/yield of trades.

Any decision on any given valuation day of overruling the external agency price would have to be approved by the Valuation Committee. The valuation would have to be suggested by the Fund Manager with the approval of Head of Fixed Income based on the market data and independently reviewed/verified by Risk Management and then sent to Fund Accountants for incorporating in the NAV Computation.

3.5 Repo

All securities taken under reverse repo will not be considered for valuation. Only the interest income earned would be considered for NAV calculation

3.6 Interest Rate Swaps

Swaps with residual maturity of less than and upto 60 Days

Use the everyday OIS rates for relevant maturity from Bloomberg for arriving at MTM prices, if the MTM price is <> 10 bps (0.1%) of SLM amortized price from 60 day, then adjust +/- 5 bps to the amortized price and start amortizing the revised price to maturity.

Swaps with more than more than 60 days of residual maturity would be valued on the following basis:

- **Floating Rate Leg.**
  - The floating rate leg would be valued as floating rate bond at cost.

- **Fixed Rate Leg:**
  - The fixed rate leg would be valued as a fixed rate bond at the prevailing YTM
  - SWAP/INBMK rates quoted on Bloomberg would be the applicable data points for YTM (extrapolated for the period to maturity, if necessary).
  - Calculation of YTM. If the applicable YTM is not quoted then YTM would be arrived by using Log Normal Interpolation of available data points (sourced from brokers / market participants)
  - The IRS value would be the net of Receive Position less Pay position.

In case the SWAP/INBMK rates are not available from Bloomberg, then the quotes received independently from Brokers shall be used. Bloomberg at present does not quote for INMBMK swaps of less than 2 years and OIS of less than 6 months.

3.7 Interest Rate Futures (IRFs)

Exchange traded IRFs would be valued based on the Daily settlement Price of the exchange or based on the methodology adopted by the Industry.

3.9 Fixed Deposits

3.9.1 Normal

Fixed deposits will be valued at cost plus accrual at the contracted rate. Fixed contracted rate FDs interest would be accrued at the contracted rate.

3.10 Valuation of Securities with Put/Call Options

For more than 60 days securities

As for other securities, securities with more than 60 days would be valued based on the average of security level valuation as provided by CRISIL/ICRA.

For less than 60 days securities

The securities would be valued based on the approach as outlined in section 2.1.

3.11 Valuation of Mutual Fund Units

Units listed and traded would be valued at the closing traded price as on valuation date. Unlisted units and to be listed units, or those for which no traded price is available, would be valued at the Net Asset Value (NAV) as on the valuation date.

3.12 Units of REIT and InvIT

Units listed would be valued based on traded closing prices.

* Irrespective of the above policy, the valuation committee might adopt valuation principles to align with the fair valuation norms.

4.2 Non-Investment Grade -Non-Performing Asset

- Classification of an asset as an NPA, provisioning and valuation of same would be done as per SEBI circular MFD/ CIR/ 8/92/ 2000, dated September 18, 2000.
- An asset will be classified as an NPA after a quarter past due date of interest. For e.g. if the due date for interest is 30.06.2000, it will be classified as NPA from 01.10.2000.
- After the expiry of the first quarter from the date the income has fallen due, there will be no further accrual interest accrual on the asset. For e.g. if the due date for interest falls on 30.06.2000 and if the interest is not received, accrual will continue till 30.09.2000 after which there will be no further accrual of income. That is from the beginning of the 2nd quarter there will be no further accrual on income.
- On classification of the asset as NPA from a quarter past due date of interest, all interest accrued and recognized in the books of accounts of the Fund till the date, should be provided for. For e.g if interest income falls due on 30.06.2000, accrual will continue till 30.09.2000 even if the income as on 30.06.2000 has not been received. Further, no accrual will be done from 01.10.2000 onwards. Full provision will also be made for interest accrued and outstanding as on 30.06.2000.
  - Once an investment has been recognized as NPA, provisioning would be made in a manner to ensure full provisioning prior to the closure of the scheme or the scheduled phasing whichever is earlier. The provisioning against the principal amount or installments should be made at the following rates irrespective: 10% of the book value of the asset should be provided for after 6 months past due date of interest i.e. 3 months form the date of classification of the asset as NPA.
  - 20% of the book value of the asset should be provided for after 9 months past due date of interest i.e 6 months from the date of classification of the asset as NPA.
  - Another 20% of the book value of the assets should be provided for after 12 months past due date of interest i.e 9 months from the date of classification of the asset as NPA.
  - Another 25% of the book value of the assets should be provided for after 15 months past due date of interest i.e. 12 months from the date of classification of the asset as NPA.
  - The balance 25% of the book value of the asset should be provided for after 18 months past due date of the interest i.e 15 months form the date of classification of the assets as NPA. Thus, 1 1/2; years past the due date of income or 1 1/4; year from the date of classification of the ‘asset’ as an NPA, the ‘asset’ will be fully provided for.
- Irrespective of the above policy, the valuation committee might adopt valuation principles to align with fair valuation norms.
5. **Valuation Guidelines - Unrated Securities**
   Investments in unrated papers would be assigned an internal rating by the Fund Manager, which would be approved by the valuation committee.

5.1 **Traded**
   Based on the Recognition of Trade criteria as mentioned in Section 1.1.

5.2 **Non-Traded - Less than and upto 60 days to maturity**
   Valuation based on the approach outlined in Section 2.1.

5.3 **Not Traded - more than 60 days to maturity**
   Valuation based on the approach outlined in Section 2.2.

6. **Guidelines - Interscheme Transfers**
   Interscheme transactions will follow the same guiding principles as that for normal market trades and valuation,

1) For less than 1 year instruments,
   a. The last 3 trades (including own trades) (relative to the time of interscheme) of at least Rs 25 crores each in the same/similar securities will be considered for determining the price of interscheme. Weighted average price/yield of such trades would be considered for arriving at the interscheme price.
   b. For price validation, broker market quotes may also be used. In such instances, market quotes from at least 3 market participants at the time of interscheme would be taken.
   c. If the same/similar security is not traded on the public platform, then the interscheme price would have to be justified by the respective fund managers and mid office (risk management), with suitable reasons and documented accordingly.

   The one or more than one of the above methods to arrive at the interscheme price. Such price shall be properly validated internally.

2) For more than 1 year instruments
   a. The last 2 trades (including own trades) (relative to the time of interscheme) of at least Rs 5 crores each in the same/similar securities will be considered for determining the price of interscheme. Weighted average price/yield of such trades would be considered for arriving at the interscheme price.
   b. For price validation, broker market quotes may also be used. In such instances, market quotes from at least 3 market participants at the time of interscheme would be taken.
   c. If the same/similar security is not traded on the public platform, then the interscheme price would have to be justified by the respective fund managers and mid office (risk management), with suitable reasons and documented accordingly.

   The one or more than one of the above methods to arrive at the interscheme price. Such price shall be properly validated internally.

   Similar security criteria would be as follows
   • Clustering of Debt Issuer universe based on outstanding rating (long term & Short term) & type of entity.
   • Similar Security Type - CD/CP/PTCs/NCDs
   • Similar Maturity

7. **General principle**
   While the fund will follow the above guidelines on an ongoing basis, there may be extraneous situations under which, in the interest of fair reflection and fair valuations, there may be deviations to the said norms. The decision on any such deviation will rest with the risk department (Mid office) based on substantial justification and adequate documentations. Furthermore all these deviations shall be reported to valuation committee for approval or ratification.

8. **Ratification of internal rating.**
   Valuation committee would ratify an internal rating assigned by credit team for valuation of issuers not having a long term equivalent rating. The same would be supported by a credit note prepared by the credit team & will be monitored on an ongoing basis as a part of portfolio credit review.

9. **Abnormal /Disruptive Business situations.**
   An abnormal / disruptive business situation from a valuation policy point of view will be one, where the existing valuation policy may unduly impact either the existing, incoming and outgoing unit holders. These situations may arise due to operational, geo political, macroeconomic disruptive events either unique to the fund or impacting the market as a whole. The onus for defining / declaring a situation / time period as an abnormal business situation will be on a committee formed. The committee shall comprise of the atleast one member of the Trustee Board, one member of the AMC board, CEO, Head of Risk, Head of Compliance, Head of Operations and Head of Fixed Income.

   The committees may in light of the prevailing conditions, chose to define such situations with adequate justifications as abnormal. The situation will be revisited at least on a weekly frequency either for deciding to prolong such situation or to justify the end of such period/situation. On decision to end such period/situation, the valuation would revert to the policy.

10. **Conflict of Interest**
   The valuation committee shall be responsible for ongoing review of areas of conflict (including potential areas, if any) and should recommend to the AMC.

11. **Valuation of Money Market and Debt Securities pursuant to SEBI circular dated 22nd March 2019 shall be applicable within 90 days from the issuance of the circular**
A. The residual maturity for amortization based valuation shall be reduced from existing 60 days to 30 days

Amortization price will be compared with reference price which shall be average of security level prices of such securities as provided by the agencies appointed by AMFI for said purpose. The amortized price shall be used for valuation only if it is within the threshold of +0.025% of the reference price.

B. Valuation of money market and debt securities which are rated below investment grade.

All money market and debt securities which are rated below investment grade shall be valued at the price provided by valuation agencies.

Till such time the valuation agencies compute the valuation of money market and debt securities classified as below investment grade, such securities shall be valued on the basis of indicative haircuts provided by these agencies. These indicative haircuts shall be applied on the date of credit event i.e. migration of the security to sub-investment grade and shall continue till the valuation agencies compute the valuation price of such securities.

Further, these haircuts shall be updated and refined, as and when there is availability of material information which imparts the haircuts.

Consideration of traded price for valuation:

In case of trades during the interim period between date of credit event and receipt of valuation price from valuation agencies, AMCs shall consider such traded price for valuation if it is lower than the price post standard haircut. The said traded price shall be considered for valuation till the valuation price is determined by the valuation agencies.

In case of trades after the valuation price is computed by the valuation agencies as referred above and where the traded price is lower than such computed price, such traded price shall be considered for the purpose of valuation and the valuation price may be revised accordingly.

The trades referred above shall be of a minimum size as determined by valuation agencies.

AMCs may deviate from the indicative haircuts and/or the valuation price for money market and debt securities rated below investment grade provided by the valuation agencies subject to the following:

The detailed rationale for deviation from the price post haircuts or the price provided by the valuation agencies shall be recorded by the AMC.

The rationale for deviation along-with details such as information about the security (ISIN, issuer name, rating etc.), price at which the security was valued vis-a-vis the price post haircuts or the average of the price provided by the valuation agencies (as applicable) and the impact of such deviation on scheme NAV (in amount and percentage terms) shall be reported to the Board of AMC and Trustees.

The rationale for deviation along-with details shall also be disclosed to investors. In this regard, all AMCs shall immediately disclose instances of deviations under a separate head on their website. Further, the total number of such instances shall also be disclosed in the monthly and half-yearly portfolio statements for the relevant period along with an exact link to the website wherein the details of all such instances of deviation are available.

C. Valuation of Gold Instruments

(1) Valuation of Gold would be in line with SEBI/IMD/CIR No. 2/65348/06 dated April 21, 2006 and notification dated December 27, 2006.

(2) The gold held by a gold exchange traded fund Scheme shall be valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for gold having a fineness of 995.0 parts per thousand, subject to the following:

   (a) adjustment for conversion to metric measures as per standard conversion rates;

   (b) adjustment for conversion of US dollars into Indian rupees as per the RBI reference rate declared by the Foreign Exchange Dealers Association of India (FEDAI); and

   (c) addition of:

      i. transportation and other charges that may be normally incurred in bringing such gold from London to the place where it is actually stored on behalf of the mutual fund; and

      ii. notional customs duty and other applicable taxes and levies that may be normally incurred to bring the gold from London to the place where it is actually stored on behalf of the mutual fund:

Provided that the adjustment under clause (c) above may be made on the basis of a notional premium that is usually charged for delivery of gold to the place where it is stored on behalf of the mutual fund:

Provided further that where the gold held by a gold exchange traded fund Scheme has a greater fineness, the relevant LBMA prices of AM fixing shall be taken as the reference price under this sub-paragraph.

   iii. In order to bring in parity between domestic prices and the international prices of gold during the month and where market quotes from importing banks are not available, it has been decided to take into consideration MCX spot prices and work back to an 'import parity' price using the LBMA price, customs duty and an RBI Reference rate, where the gold premium would be the balancing figure. The above approach would be used during the month as well in order to ensure that gold valuations track market prices accurately.

Since duties for different locations (in different States) may be different, gold valuation will be done location-wise. If any set off or duty credit is allowed against any indirect taxes in a particular State or location, these taxes would not be included (added) in the valuation.

(3) If the gold acquired by the gold exchange traded fund Scheme is not in the form of standard bars, it shall be assayed and converted into standard bars which comply with the good delivery norms of the LBMA and thereafter valued in terms of sub-paragraph (1).
The income by way of long-term capital gains of a company would be taken into account in computing the book profits and Section 10(38) of the Act grants exemption up to 31.03.2018 to any income arising from the transfer of a long-term capital asset,

B. LEGAL INFORMATION

(1) Prevention of Money Laundering Act Requirements (PML Requirements)

In terms of the PML Requirements, all intermediaries, including Mutual Funds, have to formulate and implement a Client Identification Process, commonly referred to as KYC Process, verify and maintain the record of identity and address (es) of investors. RMF recognizes the value and importance of creating a business environment that strongly discourages money launderers from using RMF. The investor(s) / unitholder(s) including guardian(s) where investor / unitholder is a minor, must ensure that the amount invested in the Scheme is derived only through legitimate sources and does not involve and is not designed for the purpose of any contravention or evasion of the provisions of all the applicable laws, rules and regulations, directions issued by the appropriate authority (the applicable laws) in force from time to time including the Prevention of Money Laundering Act, the Income Tax Act, 1961, or the Prevention of Corruption Act, 1988, etc.

Pursuant to the above and SEBI in terms of circulars - MIRSD/SE/Cir-21/2011 dated October 05, 2011, MIRSD/Cir-23/2011 dated December 02, 2011 and MIRSD/Cir-26/2011 dated December 23, 2011, the AMC has adopted certain policies to ensure KYC, PML and SEBI Requirements, considered appropriate for its line of business, being committed to prevent money launderers using RMF as a vehicle for any such illegal activity. Accordingly, RNAM may seek information or obtain and retain documentation used to establish Customers' identity. It may re-verify identity and obtain any missing or additional information for this purpose.

RMF / RCTC / RNAM reserve the right to take all steps and actions, including recording investor(s) / unitholder(s) telephonic calls, and / or obtain and retain documentation for establishing the identity of the investor, proof of residence, source of funds etc. in accordance with the applicable laws, from the investor(s) / unitholder(s), as may be required, to ensure the appropriate identification / verification / re-verification of the investor(s) / unitholder(s), the source of funds etc. under its KYC Policy.

If the payment for Purchase of Units are made by a third party (e.g. a power of attorney holder, a financing agency, a relative, etc.), the investor / applicant may be required to give such details of such transaction so as to satisfy the AMC of the source and / or consideration underlying the transaction.

(ii) the AMC determines in its sole discretion that the application does not or will not comply with any applicable laws or regulations if:

(i) after due diligence, the investor / Unit Holder / a person making the payment on behalf of the investor does not fulfill the requirements of the KYC as determined by the AMC or the AMC believes that the transaction is suspicious in nature as regards money laundering.

If the payment for Purchase of Units are made by a third party (e.g. a power of attorney holder, a financing agency, a relative, etc.), the investor / applicant may be required to give such details of such transaction so as to satisfy the AMC of the source and / or consideration underlying the transaction.

(2) KYC Compliance

In order to reduce hardship and help investors dealing with SEBI intermediaries, SEBI issued three circulars - MIRSD/SE/Cir-21/2011 dated October 05, 2011, MIRSD/Cir-23/2011 dated December 02, 2011 and MIRSD/Cir-26/2011 dated December 23, 2011 informing SEBI registered intermediaries as mentioned therein to follow, with effect from January 01, 2012, a uniform KYC compliance procedure for all the investors dealing with them on or after that date. SEBI also issued KYC Registration Agency ("KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV"). SEBI has issued circular no. CIR/MIRSD/66/2016 dated July 21, 2016 and no. CIR/MIRSD/120/2016 dated Nov. 10, for uniform and smooth implementation of CKYC norms for onboarding of new investors in Mutual funds with effect from 1st Feb 2017

(i) Requirement for the investors in mutual funds:

All investors other than KYC compliant investors as defined above are required to follow the new KYC compliance procedure as mentioned below while making any investment with the Fund:

• Provide the complete details in the KYC application form along with the required documents (for individual investors or non-individual investors as appropriate). The said form is available on RMF’s website i.e. www.reliancemutual.com or on the website of Association of Mutual Funds In India i.e. www.amfindia.com or on the website of any authorised KRA’s.

• KYC application and necessary document should either come along with financial transaction or when the client chooses to trade / invest / deal through the Intermediary and an account is opened in the schemes of RMF, the investor is required to submit, in person, the completed KYC application form along with all the necessary documents as mentioned in the KYC application form in any of the offices of the distributors (details provided in the following note) or Registrar and Transfer Agent of the RMF / RNAM i.e. Karvy Fintech Private Limited and the RMF;
• In line with SEBI circular MIRSD/Cir-26/2011 dated December 23, 2011, it is mandatory for SEBI registered intermediaries to carry out “In-Person Verification” (“IPV”) of any investor dealing with a SEBI registered intermediary for investments in a mutual fund, the Asset Management Companies, Registrar & Transfer Agent and distributors who comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds in India (AMFI) and have undergone the process of “Know Your Distributor (KYD)” are authorised to carry out the IPV. However, in case of applications received by the mutual funds directly from the clients (i.e. not through any distributor), they may also rely upon the IPV performed by the scheduled commercial banks. Unless the IPV process is completed, the intermediary will not be able to process the KYC and obtain a temporary acknowledgement for submission of all the documents. Hence the investor will not be considered as KYC compliant under the new KYC compliance procedure and hence will not be permitted to make any investment in the Fund;

• Once all the documents are verified by a KRA, they will send the investor a letter within 10 working days from the date of receipt of necessary documents by them from the Fund or its Registrar and Transfer Agent informing the investor either about compliance by the investor of the new KYC compliance procedure (“final acknowledgement”) or any deficiency in submission of details or documents.

• On the basis of the temporary acknowledgement or the final acknowledgement the investor would be eligible to deal with any of the SEBI intermediaries as mentioned in the above mentioned SEBI circulars.

(ii) Investors are requested to note the following provisions shall be applicable for “KYC Compliances”

1) In case of an existing investor of RMF and who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on ongoing SIPs/STPs in the existing folios/accounts which are KYC compliant. In case if he wants to do subsequent purchase / additional purchase he needs to comply with KRA norms by submitting KYC – KRA modification form along with requisite documents.

2) In case of an existing investor of Reliance Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available on the website of respective KRAs along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase/ new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would a onetime submission of documentation.

3) Investors who have complied with KYC process before December 31, 2011 (KYC status with KRAs as “MF - VERIFIED BY CVLMF”) and not invested in the schemes of Reliance Mutual Fund i.e. not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit ‘missing/not available’ KYC information and complete the IPV requirements.

   Update of ‘missing / not available’ KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. Once the same is done then the KYC status at KRAs will change to ‘KYC Registered’ after due verification. In such a scenario, where the KYC status changes to ‘KYC Registered’, investors need not submit the ‘missing/not available’ KYC information to mutual funds again.

   a) In case of Individual investors, following details needs to be submitted:

   i. Father’s/Spouse’s Name,
   ii. Marital Status,
   iii. Nationality,
   iv. Gross Annual Income or Net worth as on recent date
   v. In-Person Verification (IPV)

   Individual Investors are required to submit ‘KYC Details Change Form’ issued by KRAs available on their respective websites

   b) In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.

All investors (individual and non- individual) are required for KYC compliance. However, applications should note that minors cannot apply for KYC compliance and any investment in the name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Also applicants/unit holders intending, to apply for units currently holding units and operating their Mutual Fund folios through a Power of Attorney (PoA) must ensure that the issue of PoA and the holder of the PoA must mention their KYC compliance status at the time of investment. PoA holders are not permitted to apply for KYC compliance on behalf of the issuer of the PoA. Separate procedures are prescribed for change in name, address, and other KYC related details, should the applicant desire to change such information, POA will extend the services of effecting such changes

(iii) Requirement for the new investors in mutual funds (From February 1, 2017) :

• Provide the complete details in the CKYC application form along with the required documents (for individual investors or non-individual investors as appropriate). The said form is available on RMF’s website i.e. www.reliancemutual.com or on the website of Association of Mutual Funds In India i.e. www.amfiindia.com

However, in case of applications received by the mutual funds directly from the clients (i.e. not through any distributor), they may also rely upon the IPV performed by the scheduled commercial banks. Unless the IPV process is completed, the intermediary will not be able to process the KYC and obtain a temporary acknowledgement for submission of all the documents. Hence the investor will not be considered as KYC compliant under the new KYC compliance procedure and hence will not be permitted to make any investment in the Fund;

- Once all the documents are verified by a Central KYC Registry (CERSAI), they will send the investor an acknowledgment within 10 working days from the date of receipt of necessary documents by them from the Fund or its Registrar and Transfer Agent informing the investor either about compliance by the investor of the new KYC compliance procedure ("final acknowledgement") or any deficiency in submission of details or documents.

In the event of death of the unitholder under ELSS schemes, the nominee or legal heir, shall be able to withdraw the investment under ELSS only after completion of one year from the date of allotment of the units to the investor, but before completion of three year’s lock-in.

(10) Lien on Units
Subject to the extant provisions of the applicable laws, as and when an investor makes an application for subscription of units, a lien on units allotted to the Investor will be forthwith created and such lien shall remain in force and effect until the payment proceeds towards such subscription are realized by the Fund. During such period such Units cannot be redeemed by the Investor. However, in case a Unitholder makes application for redemption of units during the period when such lien is in force, the cheque towards the redemption amount of such Units will not be dispatched until the amount(s) towards the subscription of the Units has been received / credited with the Fund.

In case the cheque / draft of the Investor towards subscription amount is dishonored by the bank, the entire transaction shall be reversed and the Units allotted earlier to such Investor will be cancelled, and a fresh Statement of Account / rejection letter shall be dispatched to the Investor.

In respect of investment by NRIs, the Fund, in addition to the above circumstance(s), may also mark a lien on Units in case all the documents which are required to be submitted with the Fund are not given. Notwithstanding the aforesaid, RNAM reserves the right to modify operational guidelines from time to time with respect to the lien on Units.

(11) Pledge of Units
Subject to the other terms of the Scheme, the Units under the Scheme can be offered by the Unitholder as security, by way of a pledge, in favour of scheduled banks, financial institutions, Non Banking Financial Company or any other body, as may be permitted under the applicable laws. Upon a specific authorisation request made by a Unitholder and upon completing necessary formalities by the Unitholder, the Fund will instruct the Registrar to mark a lien on the Units standing to the credit of the Unitholder’s account. If by invoking the pledge / charge, the pledgee seeks the redemption of the Units, then the AMC shall comply with such request, if the necessary documents are made available to the AMC. No Pledge or charge shall be recognized by the AMC unless it is registered with the Registrar and a confirmation of the same has been issued by the Registrar.

The AMC reserves the right to change operational guidelines for pledge on units, from time to time. The Pledgor will not be entitled to redeem Units that are pledged, until the entity in whose favour such Units are pledged provides written authorisation / confirmation to the Fund that the pledge/lien / charge on such Units may be removed. As long as units are pledged, the Pledgee will have complete authority to redeem such Units. The pledge facility is provided to the units of all the Schemes of RMF except Reliance Tax Saver (ELSS) Fund, till the time lock in period of 3 years are completed for the investments

(12) Set Off
In case any excess amount(s) is paid to any person by RMF whether on account of redemption of units, payment of dividend or any other account, whatsoever, then RMF may seek refund of such excess amount(s) from such person. Notwithstanding the aforesaid, RNAM reserves the right to set off / adjust, either in full or in part, such excess amount(s) together with interest thereon at the rate of 15% p.a. from the amount(s), if any, payable, whether presently or in future, by RMF to such person under any Scheme of RMF.

(13) Duration of the Schemes
I. Open ended Schemes are perpetual. However, the Scheme may be wound up if:
   (a) There are changes in the capital markets, fiscal laws or legal system, or any event or series of events occurs which in the opinion of the Trustees, require the Scheme/ Plan to be wound up; or
   (b) 75% of the Unit holders in the Plan pass a resolution that the Plan be wound up; or
   (c) SEBI directs the Scheme/ Plan to be wound up in the interest of Unit holders.
   (d) If the Plan fails to meet the criteria for minimum number of investors and maximum holding by a single investor as mentioned above.
   (e) In case of Fixed Maturity Schemes, the maturity period will be calculated from the date of allotment of units. However if the maturity date falls on a non working day, the succeeding working day shall be considered for the purpose of maturity date in the respective series.

II. The Fixed Maturity Schemes will be wound up before the maturity date in the following circumstances.
   (a) If there are changes in the capital markets, fiscal laws or legal system, or any event or series of events occurs which in the opinion of the Trustees, require the Scheme/ series to be wound up; or
   (b) 75% of the Unitholders in the Series pass a resolution that the Series be wound up; or
(c) SEBI directs the Scheme/ Series to be wound up in the interest of Unitholders.

(d) If the Plan fails to meet the criteria for minimum number of investors and maximum holding by a single investor as mentioned above.

In the event of liquidation or winding up of the Scheme, each Unitholder is entitled to receive its proportion of the Scheme assets remaining after payment of debts and after providing for reserve for all debts and expenses. Instead of receiving a final payment from the Scheme on liquidation or winding up, the Unitholder may opt to switch over to other eligible Schemes then in operation at the prevailing terms of the Scheme to which the Unitholder is switching.

In terms of Regulation, a close-ended Scheme shall be wound up on the expiry of duration fixed in the Scheme on redemption of units unless rolled over for a further period.

Pursuant to SEBI Regulations, if the Scheme is to be wound up, the Trustees shall give notice disclosing the circumstances leading to the winding up of the Scheme to SEBI, in one daily newspaper having circulation all over India and in a vernacular newspaper circulating at the place where the Mutual Fund’s head office is situated. On and from the date of publication of such notice, the Trustees or the AMC, as the case may be, shall:

(a) cease to carry on any business activities, in respect of the Scheme so wound up
(b) cease to create or cancel Units in the Scheme
(c) cease to issue or redeem the Units in the Scheme

The Trustees shall call a meeting of Unitholders to approve by simple majority of the Unitholders present and voting at the meeting a resolution for authorising the Trustees or any other person to take steps for winding up of the Scheme, provided that a meeting of the Unitholders shall not be necessary if the Scheme is wound up at the end of its maturity period.

The Trustees or the person so authorised shall dispose of the assets of the Scheme concerned in the best interest of the Unitholders of that Scheme. The proceeds of sale realised shall first be utilised towards discharge of such liabilities as are due and payable under the Scheme and after making appropriate provision for meeting expenses connected with such winding up. The balance shall be paid to the Unitholders in proportion to their respective interest in the assets of the Scheme as on the date when the decision of winding up was taken. On completion of winding up, the Trustees shall forward to SEBI and the Unitholders, a report on the winding up, the steps taken for disposal of assets of the Scheme before winding up, net assets available for distribution to the Unitholders and a certificate from the auditors of the Fund. The provision for the disclosure of half-yearly and annual reports shall continue to be applicable until the winding up is completed or the Scheme ceases to exist. After receipt of the Trustees report, if SEBI is satisfied that all measures for winding up of the Scheme have been complied with, the Scheme shall cease to exist.

The Trustees also reserves the right to suspend / terminate offering fresh Plans of any maturity for subscription whenever it feels that the prevailing business environment is not conducive to the launch of such series.

(14) Procedure and manner of Winding Up:

In terms of Regulation 39(2), a Scheme of a mutual fund may be wound up, after repaying the amount due to the unitholders, -

(a) On the happening of any event which, in the opinion of the Trustees, requires the Scheme to be wound up; or
(b) If seventy five per cent of the unit holders of a Scheme pass a resolution that the Scheme be wound up; or
(c) If the Board so directs in the interest of the unit-holders.

(d) Where a Scheme is to be wound up pursuant to Regulations, the Trustees shall give notice of the circumstances leading to the winding up of the Scheme:-

i. to the Board; and

ii. in two daily newspapers having circulation all over India, a vernacular newspaper circulating at the place where the mutual fund is formed.

(e) Notwithstanding anything contained herein, the application of the provisions of the Mutual Fund Regulations in respect of disclosures of half-yearly reports and annual reports shall continue to apply.

(f) After the receipt of the report referred to above under ‘Procedure and Manner of Winding Up’, if SEBI is satisfied that all measures for winding up of the Scheme have been completed, the Scheme shall cease to exist.

(15) Disclaimer in respect of marketing of Schemes outside India

The Units of all Schemes are being offered in pursuance of the SID of the respective Schemes, as amended and updated, which has been filed only with SEBI in India.

The distribution of the SID, read with this SAI and the offering, subscription, sale or transfer of the Units thereof in certain jurisdictions may be restricted or regulated by appropriate laws. No action has been or will be taken in any jurisdiction that would permit or tantamount to permit a public offering of the Units or the possession, circulation or distribution of the SID or SAI or any other offering, marketing or publicity material relating to any Scheme or the Units, in any country or jurisdiction (other than India), where any action for such purpose(s) is required.

Accordingly, the Units may not be marketed or offered or sold, directly or indirectly, and neither the SID nor the SAI or any other offering, marketing material, circular, form of application or advertisement in connection with the Units (collectively referred to as “Offering Material”) may be distributed or published, in or from any country or jurisdiction unless such marketing, offer or sale or circulation, etc is in compliance with all applicable laws and regulations of any such country or jurisdiction. The Offering Material does not constitute, and the AMC, RCL, or Trustees are not making, an offer of, or an invitation to subscribe for or purchase, any of the Units in any jurisdiction in which such offer or invitation would be unlawful.

The Offering Material does not constitute an offer to any person other than to whom it has been issued. It may only be used by those persons to whom it has been delivered in connection with the offering described herein and may neither be copied nor directly or indirectly distributed or made available to other persons, without the express consent of the AMC and/or RMF.

The recipient of the Offering Material is required to read, consent and form his own independent opinion / judgment, as to their investment,
at their own cost and expense, and RMF, the AMC, Sponsor and Trustees require such recipient to inform himself about and to observe any restrictions at their own expense, without any liability to RMF, the AMC, the Sponsor or the Trustees.

C. GENERAL INFORMATION

(1) Security Lending

In accordance with the Mutual Fund Regulations the Fund may engage in stock lending activities. Accordingly, the Scheme may lend securities to the extent of its entire portfolio of the Scheme to any borrower through an approved intermediary. The Securities will be lent by the approved intermediary against collaterals received from the borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower. It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities.

(2) Inter Scheme Transfer of Investments

The Scheme may purchase / sell securities under the Scheme through the mode of inter-Scheme transfers, if such a security is under the buy / sell list of the Scheme and is on the sell / buy list of another Scheme under the Fund. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if,-

(a) such transfers are done at the prevailing market price for quoted instruments on spot basis.(Spot basis shall have same meaning as specified by stock exchange for spot transactions)

(b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

The valuation of untraded / unquoted securities and debt instruments shall be done in accordance with the general valuation policies of the Fund. Inter scheme Transfers into liquid schemes would additionally adhere to SEBI circular SEBI/IMD/CIR NO.13/150975/09 dated January 19, 2009.

(3) Underwriting by the Scheme

Subject to Regulations, the Scheme may also undertake underwriting activities in order to augment its income, after the Mutual Fund obtains a certificate of registration in terms of the SEBI (Underwriters) Rules and SEBI (Underwriters) Regulations 1993 authorising it to carry on activities as underwriters. The total underwriting obligations of the Scheme, at any time, shall not exceed the total value of the corpus of the Scheme together with undistributed profits lying to the credit of the Scheme. The decision to take up any underwriting commitment shall be made as if the Scheme is actually investing in that particular security. As such, all investment restrictions and prudential guidelines relating to investments, individually and in aggregate as mentioned in Regulations shall, in so far as may be applicable, apply to underwriting commitments which may be undertaken under the Scheme.

(4) Borrowing by the Mutual Fund

To meet the temporary liquidity needs of the Scheme for the purpose of repurchase, redemption, or payment of income /dividend to the unit holders, the Scheme may borrow up to 20 percent of its net assets for a period of up to six months or as may be permitted by the regulations. Loans may be obtained from any entity / organisation which are not specifically debarred to give loans to Mutual Funds and also loan is available from such entity / organisation at competitive terms. However, if loan is obtained from any associates such loans will be obtained only at extremely competitive terms at equal to or lower than market rates. These loans may be secured by securities or assets of the Scheme pledged to such entity / organisation. Borrowing by the Mutual Fund on account of the Scheme will tend to increase the impact of investment gains and losses on the NAV of the Scheme.

The borrowings by schemes of RMF are disclosed in the various reports placed to Trustees from time to time. Borrowings, exceeding 10% of the Net Assets of the Scheme is disclosed in Half yearly un audited financial statement.

(5) Associate Transactions

(a) Policy for investing in group companies of the sponsor of a Mutual Fund

In terms of current regulations no investment will be made in any unlisted security of an associate or Group Company of the sponsor and in any security issued by way of private placement by an associate or group company of the sponsor. Further, no investment will be made in listed securities of the group company of the sponsor, which is in excess of 25% of the net assets of the Scheme of the fund. Investment in group companies will be done only in the interest of the fund and as per the Regulations.

The AMC from time to time, for the purpose of conducting its normal business may use the services of the Associates of the Sponsor / AMC, in existence or to be established at a later date, in case such an associate is in a position to provide the requisite services to the AMC. The AMC will conduct its business with the aforesaid companies on commercial terms and on an arms length basis and at the then prevailing market prices to the extent permitted under the applicable laws including the Regulations, after an evaluation of the competitiveness of the pricing offered by the associate companies and services to be provided by them.

Should the Fund enter into any transaction with / through associates / group companies of Sponsor/ AMC, it shall do so as may be permitted by the Regulations and will disclose details of such investments or transactions in the manner required by the Regulations.

(b) Underwriting obligations with respect to issues of Group/Associate Companies

RMF under its entire Scheme has till date not entered into any underwriting contracts in respect of any public issue made by any of the group/associate companies of the Sponsor.

(c) Subscription to issues lead managed by Group/ Associate Companies

No Scheme of RMF has till date invested in any public issue lead managed by any Group/Associate company of the Sponsor.
